Introducing new GSN Social Emotional Learning Units! High School and Middle School Coping with Crisis units are now available!

In response to the current crisis around COVID-19, Generation Schools Network has developed new curricula to make it easier for you to help your students through the pandemic. High School and Middle School *Coping with Crisis* are now available for FREE for the remainder of 2020. Through these

units, students will explore potential short- and long-term effects of a crisis, discuss recovery strategies, consider common reactions to internal and external crises, and brainstorm recovery activities that can be implemented after a troubling event. At the end of the units, students will collaborate with school administrators and guidance counselors to create an informational Facebook/Slack or other online learning group as a resource for classmates who may be experiencing or who have experienced a **crisis**. These units is FREE to download for the remainder of 2020 with the code: CRISIS2020 at our [online store](#).
